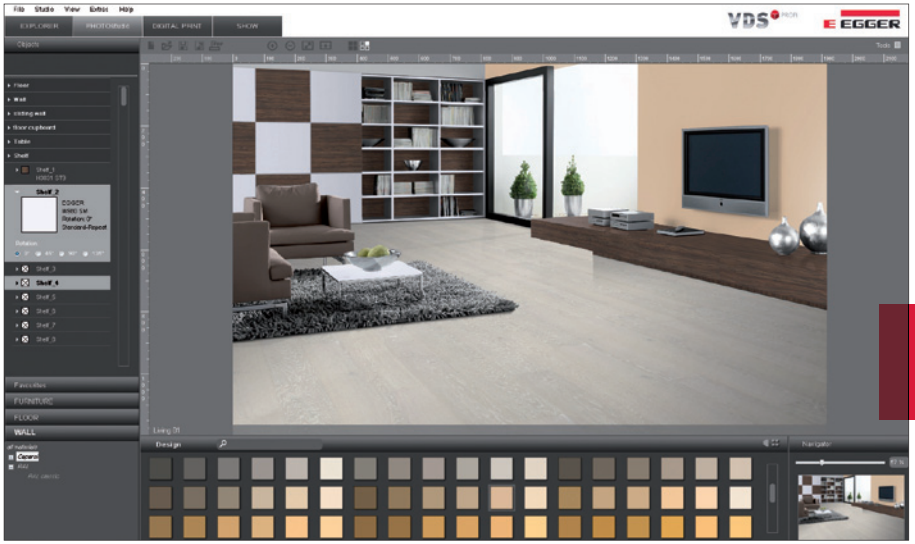
You will find the license key to test VDS PROFI for 30 days free of charge below, or at www.egger.com/vds where you can also purchase the full version of VDS PROFI.

Your 30 day license key:

INTRODUCING VDS PROFI

VDS PROFI is a visualisation software of the **V**irtual **D**esign-**S**tudio from EGGER – the ideal addition to our current tools and samples. You can quickly visualise decors in realistic room situations. Design entire rooms including flooring, walls, ceilings and doors. You can not only see the effect of a material on a large surface area, but can also obtain an overall impression of the ambience.



VDS PROFI – your professional tool for visualisation and presentation

PROFESSIONAL CONSULTING DOCUMENTS

In conclusion you create professional consulting documents with only one click of the mouse – of course with your own company logo. In this way a positive impression also remains after the customer meeting.

VDS PROFI gives you support in your consultation and underlines your competence – successful selling was never so easy

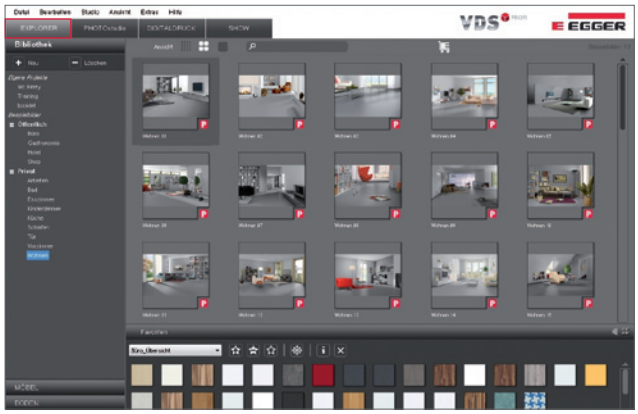
SELLING SUCCESSFULLY WITH VDS PROFI

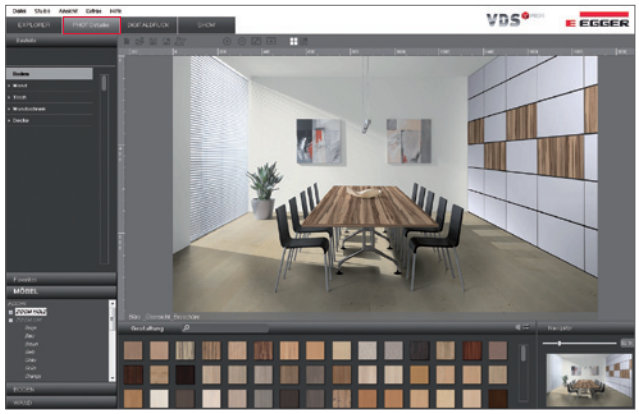
You acquire an order if you convince the customer. In economically challenging times successful consulting becomes a decisive factor. With the **V**irtual **D**esign-**S**tudio we at EGGER provide you with the tool that specifically supports you with your task.

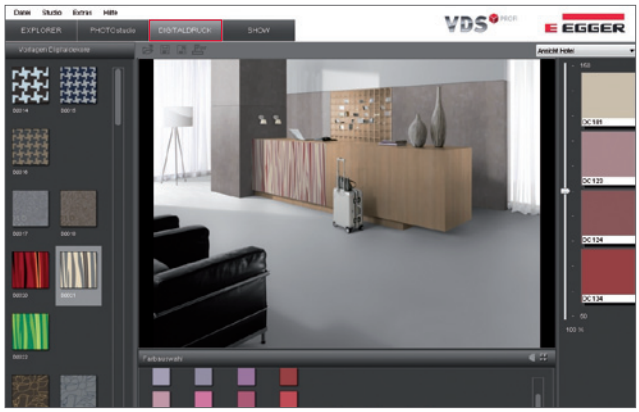
To project a DIN A4 sample onto the surface of a kitchen front or a floor of 20 m² (216 square feet) is not easy for many customers. With VDS PROFI you make it easier for them to choose the right material, and with the use of state-of-the-art visualisation technology you can deliver an impressive consultation.

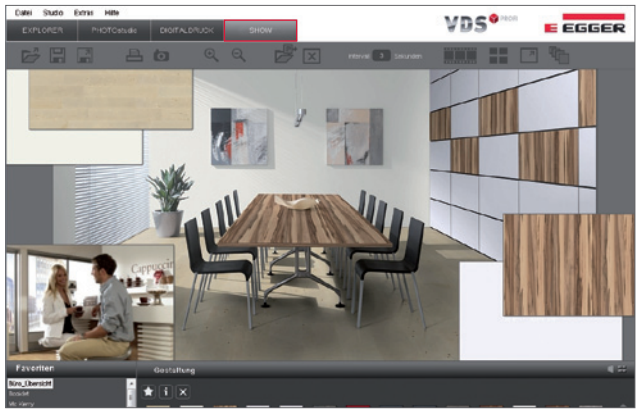
THE 4 FUNCTIONAL AREAS OF VDS PROFI

- The EXPLORER: here you will find all the data contained in the programme and can store your own work.
- The PHOTOstudio: process room images.
- The DIGITAL PRINT: here you design individual decors.
- The SHOW: create professional presentations.









VDS PROFI – clearly arranged and easy to understand

DISCOVER DIVERSITY: THE VDS PROFI EXPLORER

ROOM IMAGES FOR ALL LIVING SITUATIONS

There are more than 80 room images from private and public application areas available for you in the library. That is also where you save your own projects – clearly arranged and easily accessible.

A large selection of decors as well as room images from all relevant areas of interior design provides you with the necessary design freedom.

ALL DECORS IN PREMIUM QUALITY

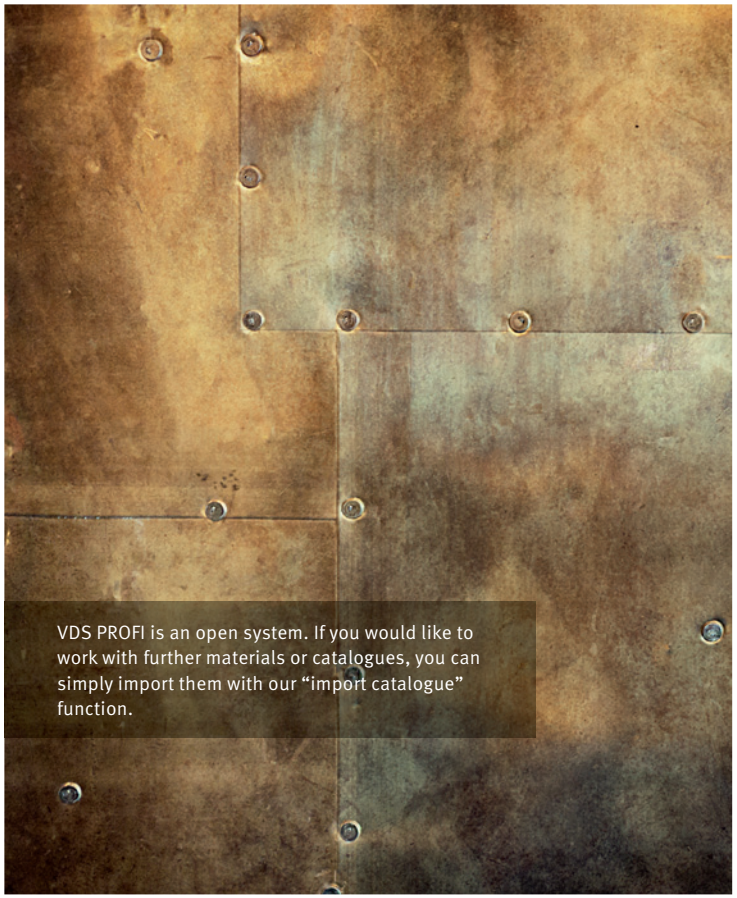
Under the tabs FURNITURE, FLOORING and WALL you will find all the collections from EGGER, as well as further manufacturers in high resolution quality. These are automatically updated – so you will always be up-to-date with your consulting.

MULTI-PURPOSE APPLICATIONS

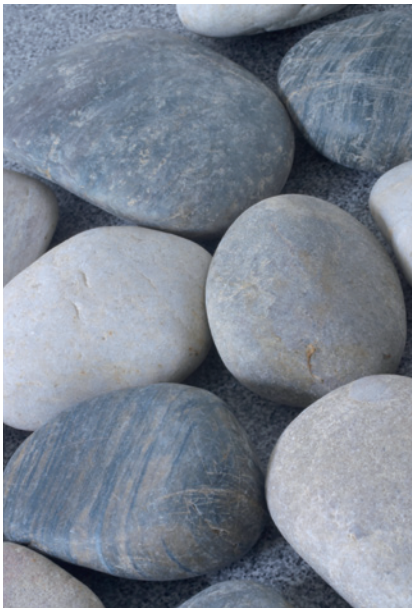
In case you would like to use EGGER decors in other drawing programmes, you can export the desired materials with the My Material Manager.

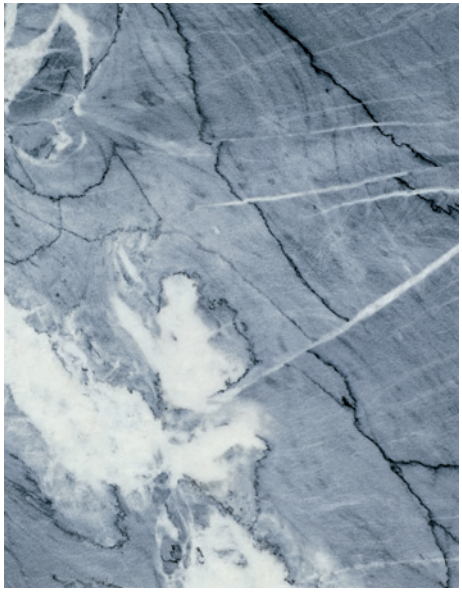
FAST ACCESS

Use certain decors particularly often? Or you would like to prepare yourself for your next customer meeting with a pre-selection of materials? With the favourites function you can prepare decor lists and can thereby prevent having to search for a decor in the collections.



VDS PROFI is an open system. If you would like to work with further materials or catalogues, you can simply import them with our “import catalogue” function.





THE PHOTOSTUDIO: DESIGN, TEST, FASCINATE

Whether classic design or adventurous colour combinations, whether noble, unadorned wood structure or eye-catching grain – with VDS PROFI all possibilities are open to you. You can discover material combinations and decor worlds playfully and without long loading times. The programme supports you with decor selection, expands the visualisation ability and in the last instance accelerates the decision for the correct material.

Lively or classic, colour accents or natural – in the PHOTOstudio you implement your ideas in high image quality.

THIS IS HOW YOU DESIGN WITH VDS PROFI

1. You select a room image.
2. You select furniture decors, flooring with all wall colours and design the room scene click by click.
3. You prepare professional consulting documents with your company logo with only one click of the mouse.

PRINTING AND SAVING

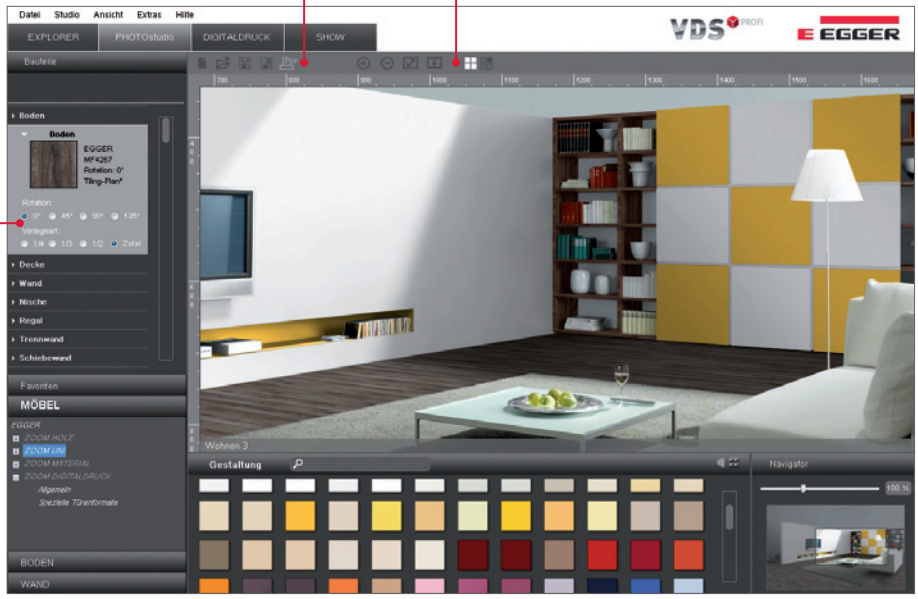
The PDF print function creates high-quality consulting documents with your company logo. When you are finished save your work in a project folder.

GROUPING

You design all the surfaces of an object with only one click of the mouse. If you should wish to cover individual surfaces with other decors, you can change to individual assignment mode.

ROTATING

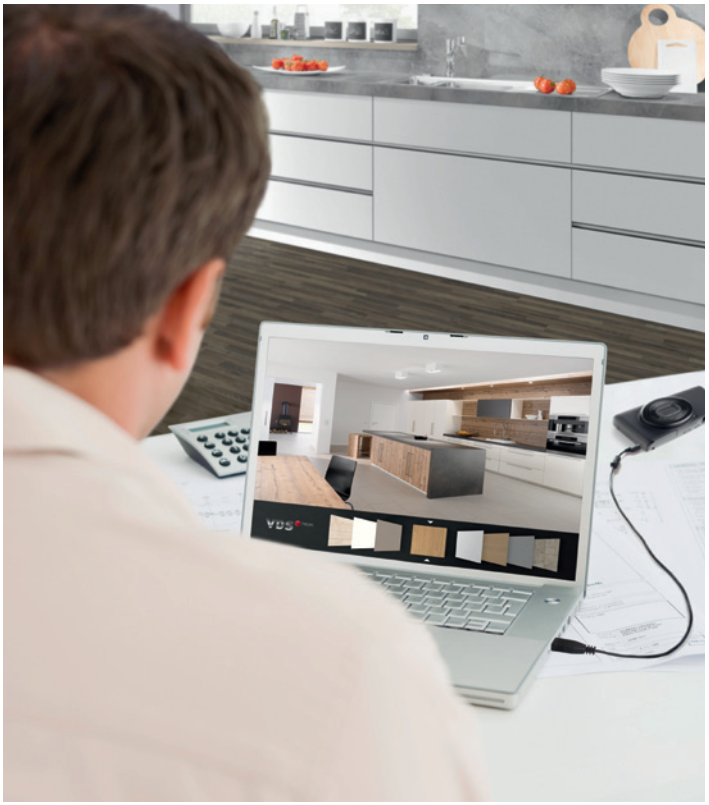
You can adjust the orientation of the decor and with flooring also the type of installation.



We support you in the use of the programme with workshops, training videos and our customer service. Drop in and visit us at www.egger.com/vds. For quicker access to our VDS PROFI clip use the QR code to the left.

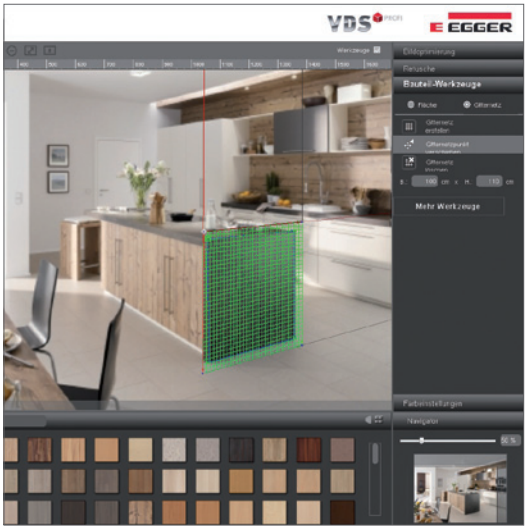
YOUR OWN PROJECTS IN VDS PROFI

There is hardly any better reference than your own successes. Therefore VDS PROFI offers you different ways to present your own projects and to work with them.



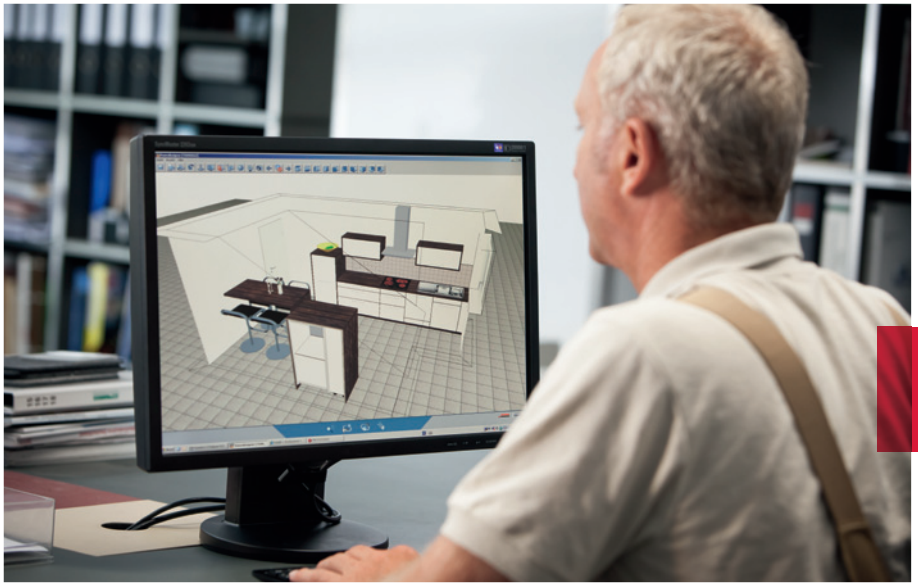
IMPORTING PHOTOS

If you would like to use your own photos in VDS PROFI, load them in the PHOTOstudio. There you will find numerous tools for image processing. You will find suggestions for this on our web site under www.egger.com/vds.



IMPORT SKP FILES

The import of your own projects in the format skp is also a very practical feature. This format is generated, for example, by the free CAD software Google SketchUp. Additionally, you can download finished projects for free in the Google 3D gallery. VDS PROFI recognises the individual surfaces automatically in skp-files – you can start designing right away.



ROOMDESIGNER

ROOMDESIGNER
DESIGN, PRESENT AND PRODUCE IN 3D

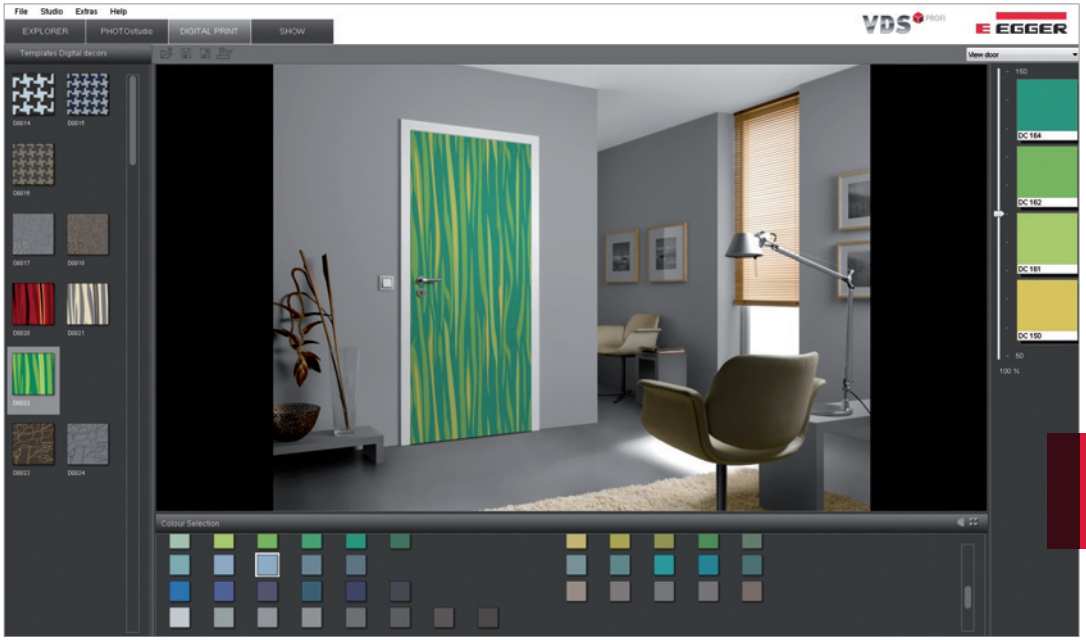
ROOMDESIGNER

In the everyday interior design work interfaces are a challenge. Mistakes easily creep in when costs are calculated or fabrication lists are prepared according to drawings that were created with other programmes. It is different with the ROOMDESIGNER: with this planning software you can not only construct, calculate and present a project. You can at the same time order the matching pre-fabricated furniture components according to your design as of one single piece – a good possibility to lessen work peaks or to precisely manufacture complicated CNC designs.

You will find further information on our web site www.egger.com/roomdesigner.

THE DIGITAL PRINT: YOUR VERY PERSONAL DECOR

Separate yourself from the masses and impart your projects with a personal touch. With VDS PROFI DIGITAL PRINT you design decors just as you want them. Our templates support you in this. To adjust the colour and scaling you can select between a 2-D view and different room situations. Through this it is possible to optimally assess details as well as the overall impression.



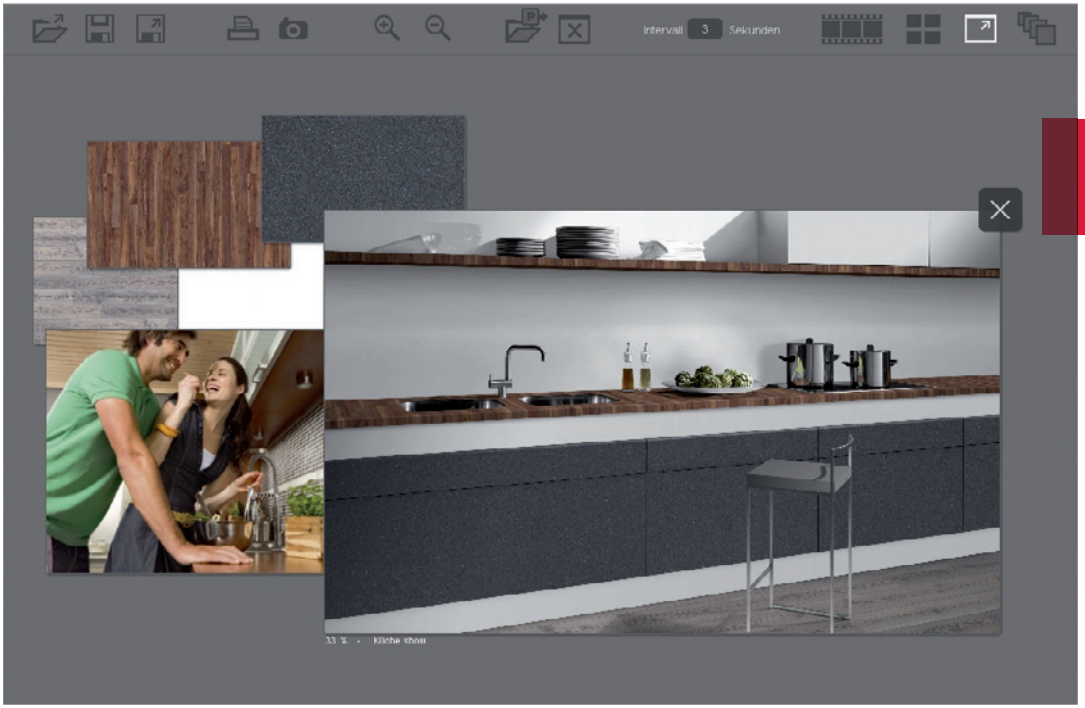
Design decors yourself – for unique projects

With the PDF print function you create your personal ordering documents. Make sure that you have a connection to the Internet because only through this is it possible to generate your individual decor number. With this decor number you order samples directly from EGGER or can have an offer prepared for you by your specialist board dealer. As of a minimum order quantity of 260 m² (2799 square feet) we supply your idea as a EURODEKOR® melamine faced board, laminate, lightweight or acoustic board. To adjust the colour settings of your screen we have prepared a colour card for you.

You can obtain it in the EGGER Online shop or through digitalprint@egger.com.

THE SHOW

It rarely lacks in creative ideas for the presentation of your work – what is mainly missing is the time to implement them. With VDS PROFI you get it done casually as it were. In the category SHOW you effortlessly prepare photo collages, slide shows and project overviews. You can load photos, projects, decors and arrange them freely on the screen or sort through them with the compare function. You can immediately export your work as .pdf, use it as a background image or play it as a slide show.



Professionally designed, attractively presented – this is how you convince your customers

Straightforward and fast – with VDS PROFI you can concentrate entirely on advising your customers. No time-consuming installation, no waiting. This is what makes the programme your ideal service tool.

SERVICE

EGGER continues to support you after your purchase. If you have any questions or problems, please feel free to contact us: via the contact form on our homepage www.egger.com/vds or via the VDS PROFI hotline under T +49 281 319 261-27. Together with our VDS service partner active online we will process your request as quickly as possible.

EGGER ONLINE SHOP

Decor samples, services and EGGER articles – discover the diverse offers in our online shop under: www.egger.com/shop. Of course you will also find VDS PROFI here.

Further information

Have you become inquisitive? You can easily inform yourself about the possibilities of the VDS PROFI programme on our homepage www.egger.com/vds. Here you will find:

- Instruction videos, which show the perfect handling of VDS PROFI in short clips.
- The VDS PROFI User Manual, where you can reference all the functions. You will also find it directly linked in the programme.
- Our FAQs with numerous solution suggestions for the problems of the users of the VDS PROFI programme.

THE VDS PRODUCT FAMILY

Do you already know all the products from our **V**irtual **D**esign-**S**tudio? We have developed solutions for the most diverse requirements. You will find details under www.egger.com/vds.

VDS MOBILE

With this free App for the iPad you also have immediate access to the EGGER collection whilst travelling. You can inform yourself quickly and easily about our decors and order samples in the EGGER online shop.

VDS ONLINE

With our free online tool our end customers playfully discover the EGGER decor world. Have a look for yourself under www.egger.com/vds.

VDS HD

For demanding visualisations in showrooms or at trade fairs we recommend VDS HD. Optimised for touch screen and with additional options such as pattern recognition or 3-D projection, it makes sales presentations perfect.
